JOB DESCRIPTION

JOB TITLE:	Flexera Implementation Consultant
LOCATION:	Remote
WORK HOURS:	US Time zone
Summary	We are seeking a highly experienced Flexera Implementation Consultant remotely. In this role, you will be responsible for leading Flexera implementations, designing architecture, configuring servers, deploying agents, and providing ongoing support to ensure the success of our clients' projects.
Responsibilities	• Lead the implementation process, ensuring seamless execution and alignment with client requirements. • Develop comprehensive architecture designs tailored to each client's unique needs and objectives. • Oversee the setup and configuration of Flexera servers, databases, and Beacon servers to optimize performance and functionality. • Configure APIs and integrate connectors to facilitate seamless data exchange between Flexera and other systems. • Manage the deployment of agents across endpoints, ensuring comprehensive coverage and accurate data collection. • Provide ongoing support and troubleshooting to address technical issues and ensure smooth operation of Flexera implementations. • Maintain and optimize server environments, including Windows/Linux/UNIX, to support Flexera operations effectively.

Qualifications	• 5+ years of experience with Flexera
	• Experience leading Flexera Implementations
	    o design architecture,
	    o server setup,
	    o API configurations,
