JOB DESCRIPTION

JOB TITLE:	Flexera Technical Expert
LOCATION:	India Hybrid
WORK HOURS:	US time zone
Summary	We are looking for an experienced and technically adept Flexera Technical Expert to join our dynamic team. In this remote role, you will focus on developing, managing, and troubleshooting custom integrations that enhance Flexera operations. The ideal candidate will possess over 2 years of experience with strong technical know-how in SQL querying and PowerShell scripting, alongside an understanding of integration processes involving various systems.
Responsibilities	• Develop and manage custom integrations utilizing SQL queries, specifically integrating with: 　o Orca and BMC BSA for inventory data. 　o Internal ERP systems for business data consolidation. 　o Internal CMDB for managing server assets. • Provide support for the rollout of Flexera Agent and Kubernetes Agent. • Collaborate on and support SaaS integrations as necessary. • Troubleshoot and resolve integration issues to maintain data integrity. • Engage in continuous improvement of integration efficiency and effectiveness.
Qualifications	• Above 2 years of experience in a technical role involving Flexera tools and integrations. • Demonstrated expertise in developing and troubleshooting custom integrations using SQL queries. • Familiarity with integration processes concerning inventory, business data, and asset management. • Strong technical skills in PowerShell scripting. • Ability to effectively communicate complex technical concepts to non-technical stakeholders. • Proven analytical and problem-solving abilities, particularly in resolving integration-related issues. • Ability to work independently within a remote team while meeting deadlines and delivering high-quality results.
